CELEBRATING ITS
ONE YEAR
ANNIVERSARY!!!!**

**THANK YOU ALL --
CLIENTS,
EMPLOYEES,
CONTRACTORS and
FRIENDS of MIPLG**

**You've made MIPLG
possible.**

MIPLG Update - One Year Anniversary

One year ago on July 1, 2006, John Maldjian and Ray Moser opened the doors of MIPLG with a vision for a new type of IP law firm – open, fair, and cutting edge. Our employees rallied around this vision – an IP law firm that provides a fair and open atmosphere to our employees, contractors, and clients as we provide cutting edge, reasonably priced legal services to our clients. As evidence of support for a firm with such a vision, our growth in clients and personnel has been stellar. We originally moved into a 3800 square foot space and quickly expanded to 4200 square feet. As the year progressed, we added new furniture, a new phone system, on-line access to documents and state of the art IT infrastructure. We also added many new personnel – from the five that joined MIPLG from Moser, Patterson and Sheridan (now Patterson & Sheridan), we have grown to 17 employees and contractors. In addition, to broaden our work output, MIPLG has strong ties to both Indian and Chinese patent searching and drafting resources (see More New Services below). The MIPLG partners, John and Ray, thank all of you that have been involved in the success of MIPLG for your hard work and dedication. You've made MIPLG a great place to work.

Our growth is driven by a huge surge in business that is evidenced by the addition of a substantial number of clients covering a variety of technologies including plastics, software, video processing, optical semiconductor devices, telecommunications, medical devices, adhesives, nutraceuticals, and more. This growth is generated through our focus on client needs and fulfilling those needs at a reasonable cost. Such cutting edge services as the Virtual In-House IP Counsel program, offshore patent searching and drafting, the availability of on-line docket access, the efficient use of our IT infrastructure and so on, have been very attractive to many clients. These services allow MIPLG to provide superior client support that fits any budgetary constraint.

MIPLG would like to thank the clients that stuck with us through the start-up/transition phase and those that have joined us over the past year. We shall strive to continue to provide you with the best service in the business.

What will the future bring? More of the same – more growth, more cutting edge services, more fulfilled clients. MIPLG is currently looking to add more space to meet the needs of our local clients. We've also begun an expansion program to add strategically positioned Of Counsel attorneys located throughout the US in support of our current clients as well as future clients. These attorneys bring strong technical and legal experience to MIPLG through a contractual relationship with the firm.

We look forward to the future growth of MIPLG while maintaining

our vision of a fair and open atmosphere as we provide reasonably priced legal services to our clients.

New Faces

Since our last Newsletter, MIPLG has hired a new secretary and two new attorneys.

Angela Fiorino comes to us with eight years of IP secretarial experience. She is supporting John Maldjian, Julian Santos, and Ann LaFeir.

Ann LaFeir comes to MIPLG from Lowenstein Sandler. She received her law degree from Seton Hall and has been practicing patent law since 2002. Ann has a Bachelor of Science degree in Aerospace Engineering from Virginia Polytechnic University (a real "rocket scientist"!!).

In addition, Dr. William Burke, the former Vice President of Licensing and Intellectual Property at Sarnoff Corporation, joined MIPLG as an Of Counsel attorney after retiring from Sarnoff. Dr. Burke provides substantial IP licensing and prosecution experience to MIPLG clients.

We welcome all of you to MIPLG!!!

New Fun

MIPLG now provides lunch to all employees on Friday. It has turned into a great time to catch up with one another and discuss our weekend plans. We've been testing the cuisine and delivery services of various local restaurants.

MIPLG is planning a one-year anniversary party. All employees, contractors and their families are invited to a barbeque and swim party at Ray Moser's house. A date is still being determined.

On Friday's at 5 pm we generally open a bottle of wine (or two). Any clients that wish to join us to celebrate the end of the week are welcome to stop in to swirl a glass or two. Before dropping in, please call Ray Moser (732-978-4890) to ensure we'll be celebrating that week and also to discuss the wine of the week.

More New Services from MIPLG

MIPLG now offers patent drafting services from Chinese technical writers. MIPLG provides inventor interviewing services and quality control services for all offshore drafted patent applications. Such offshore preparation can cut the cost of preparing a patent application by more than 40%. These applications are guaranteed to have the same high quality as applications prepared by MIPLG patent attorneys.

This new source of patent drafting talent augments the use of our existing technical writers in Mumbai, India. If you have an interest in cutting your patent drafting costs by 40%, call us.

Keep in mind, the drafting personnel are trained by MIPLG. The product that is generated is indistinguishable from the product we generate within MIPLG. Try the service; we think you'll like it.
